PRODUCT HIGHLIGHT

# 4WD FOCUS

## DRIVESHAFTS, SWIVEL HUB KITS AND SPECIALTY HUB SOCKETS

As the season for family road trips, camping adventures, and towing begins, ensuring your 4WD is in top condition is essential. Prepare your 4WD with BW's high-quality components and tools, so you can focus on the journey ahead with peace of mind.

### DRIVESHAFTS

4WD drivshafts transfer power and torque from the differential to the wheels, crucial for heavy towing and off-road adventures. BW 4WD drivshafts feature high-quality Constant Velocity (CV) joints for smooth articulation and plunge, accommodating steering and suspension travel. These durable OE replacement drivshafts perform reliably in everyday driving and rugged terrains.

### SWIVEL HUB KITS

Swivel hubs endure significant wear during off-road trips or when towing heavy loads. BW's swivel hub kits provide all the necessary components for a rebuild, ensuring the smooth operation of your 4WD system and avoiding unexpected breakdowns before your travels.

### SPECIALTY HUB SOCKETS

Proper maintenance is key to 4WD readiness. BW's specialty hub sockets simplify essential repairs and ensure secure and efficient hub servicing, preparing your vehicle for the rigors of towing and camping.
